

# ***Foundations of Speech and Hearing: Anatomy and Physiology, Third Edition***

## **List of Videos**

Video 3-1. Anatomy  
Video 3-2. Balloon Analogy of the Respiratory System  
Video 3-3. Diaphragm Movement  
Video 3-4. Ventilation  
Video 3-5. Sustained Vowel - Volume and Pressure  
Video 3-6. Connected Speech - Volume and Pressure  
Video 4-1. Vocal Fold Model  
Video 4-2. Adduction, Abduction, Length Change  
Video 4-3. Glottal Fricative and Whisper  
Video 4-4. Vocal Fold Vibration  
Video 4-5. Fundamental Frequency  
Video 4-6. Source Filter  
Video 5-1. Velopharyngeal Closure  
Video 5-2. VP-N Acoustic Impedance  
Video 5-3. Grandfather Passage  
Video 5-4. Nasalization  
Video 5-5. Hypernasality  
Video 6-1. Vowel Articulation  
Video 6-2. Consonant Articulation  
Video 6-3. Microbeam Abracadabra  
Video 6-4. Sliding Articulatory Gestures  
Video 6-5. Glossectomee  
Video 7-1. Oral Phase Tongue Movement  
Video 7-2. Videofluoroscopy Normal  
Video 7-3. Videofluoroscopy Abnormal  
Video 8-1. Tonotopic Organization  
Video 8-2. Traveling Wave
